Sal - va - - tor mun - di,

Sources: Tallis and Byrd, *Cantiones quae ab argumento sacrae vocantur*, 1575 (Latin version); John Barnard, *The First Book of Selected Church Musick*, 1641 (English version); and University of California, MS. M2. C645 late 17th century, organ (organ reduction, English version only).

The musical texts of the Latin and English versions are by no means identical, as may be seen from this conflation.

Editorial Method: Bar-lines, small notes in the organ part, names of parts, small accidentals, and cautionary accidentals in brackets are editorial. Where the music of the English and Latin versions differs, notes to be used with the English text are printed small, with upward stems.

This edition has been reprinted from *The Treasury of English Church Music* volume 2 by permission of Blandford Press Ltd.
